

Resurfacing works - A603 Barton – 14/01/19 – 24/01/19 - CCC Roadworks

Following on from the recent completion of the vehicle restraint barrier at J12 of M11, I am writing to inform you of upcoming work on the A603 Barton RAB and approaches. Over the course of the scheme, and to make best use of the closure that will be in place, we will also be looking to repair sections of the cycleway, replace damaged kerbing, cutback vegetation and install/renew any signs.

This work is scheduled to take 10 days Monday to Friday and working hours will be 2000 – 0600. For the duration of the works a diversion route will be in place which can be viewed at the following link along with other site specific information. The work will commence on 14/01/19, please note that it is weather dependent.

Link to CCC website as mentioned -

Please feel free to forward this email to anyone else you think may benefit.

If you have any further questions or queries regarding the works please let me know,

Kind regards

Josh
