

Greenways cycle scheme, 'quick wins' Comberton to Barton cyclepath

The Greenways project officer has confirmed that works will start on **Monday 25th March**, with an expected duration of the works as **17 weeks**.

To clarify:

The path behind the pond/across the village green will not be widened but will be resurfaced. The path outside the access to No. 8 will see the path continue across the gravel with kerbs either side (as edgings) and short asphalt ramps either side to deal with the slight level difference.
