**2011 Census:** The 2011 population census took place on 27 March 2011. The data provided in this profile is based on output measures for the **usual resident** population. A **usual resident** of the UK is anyone who, on census day, was in the UK and had stayed or intended to stay in the UK for a period of 12 months or more, or had a permanent UK address and was outside the UK and intended to be outside the UK for less than 12 months. A **household** is defined as one person living alone, or a group of people (not necessarily related) living at the same address who share cooking facilities and share a living room or sitting room or dining area.

Census data has been provided by the Office for National Statistics (ONS). This profile uses extracts from several published data sets. Please refer to the ONS data tables for further details and definitions.
